How to read the score

Each agency–supplier pair gets points for every red flag it triggers (max 10).

2 points (pair-level)
- Concentration: supplier wins ≥ 25% of the agency's spend
- Cluster: awards to the same supplier ≤ 30 days apart
- Outlier: an award far larger than usual for the agency (z > 3)

1 point
- Repeat winner: 5+ awards across 4+ years
- March spike: agency awards ≥ 1/6 of contracts in March
- Round amounts: agency uses round-thousand amounts ≥ 2× the norm
- Benford: agency's first digits fail Benford (p < 0.01)

Score 4+ = priority review (24 of 10,602 pairs)
